*The Bank uses certain adjusted financial performance measures to provide more meaningful comparisons of the Bank's performance over time. Adjusted financial performance measures reflect earnings before nonrecurring items (advance prepayment fees, certain extraordinary gains and losses associated with the early retirement of debt, and certain other material nonrecurring gains and losses), net of the amortization of current and prior period nonrecurring items, in accordance with the Bank's retained earnings policy. Adjusted financial performance measures also exclude any current period fair value adjustments (net of applicable assessments) resulting from the adoption of SFAS 133 on January 1, 2001, which include adjustments made in accordance with SFAS 133 and adjustments on held-at-fair-value securities reclassified from held-to-maturity securities upon the adoption of SFAS 133. In addition, as a result of the Gramm-Leach-Bliley Act of 1999, beginning in 2000 the REFCORP assessment is classified as an expense and is included on the Bank's income statement. Before 2000, the REFCORP assessment was a charge to capital and did not appear on the income statement. These adjusted financial performance measures present the Bank's operating results after subtracting the REFCORP assessments for 1997 to 1999.
